

# RENEWABLE ENERGY CHALLENGE

# 2023

Use your imagination to **power up** your community!

Enter your renewable energy project to win exciting prizes.

The Renewable Energy Challenge is a competition for high school learners to develop and enter projects related to renewable energy. Each team should have 3 to 5 learners per entry. The competition is open to pupils doing Grades 9 - 11 at Climate Club host schools in the Eastern, Western and Northern Cape.

Applications open: 23 January 2023 | Applications close: 31 March 2023
